

CRICKSTATS

7. FUNCTIONAL & PERFORMANCE TESTING

Testing

Testing verified Player and Match Performance record creation, validation checks for mandatory fields and score limits, record type behavior, flow execution, and roll-up summary calculations for player statistics.

Performance Testing

System performance was evaluated during data entry, report generation, and dashboard loading. Multiple user interactions were tested for stable performance. Reports and dashboards were checked for accurate visualization and updates.

Test Note

Enter some records in the Player Object and Match Performance Object to get the results.

Advantages

- Centralized system
- Real-time analytics
- Secure platform
- Scalable design
- Reduced manual work

Disadvantages

- Requires Salesforce license
- Internet dependency
- Limited offline access
